## Hobbies

In my free time, I indulge in a few hobbies that bring me joy and relaxation. I thoroughly enjoy watching anime and reading manga, as they transport me to fascinating worlds and narratives. Additionally, I find entertainment and knowledge through podcasts, exploring various topics that pique my curiosity. To maintain a healthy lifestyle, I am also an avid gym-goer, appreciating the physical and mental benefits it offers.

## Profile

Experienced and passionate Software Engineer with 3 years of hands-on experience in developing and implementing software solutions. Proficient in various programming languages, I excel in collaborative team environments, and possess strong problem-solving skills. Committed to staying updated with the latest industry trends and technologies, I aim to contribute my technical expertise to drive innovative software solutions.

## Employment History

### software quality enginner, RedHat, Bengaluru

SEPTEMBER 2020 – PRESENT

- Developed test plans, test cases, and test scripts to ensure the highest level of software quality
- Created a comprehensive test strategy, suite of regression and functional tests to ensure the quality of software releases
- Developed and implemented test cases to ensure software met functional and non-functional requirements
- Designed and automated Pipelines on Cloud platform to improve product quality

## Education

### Computer Science Engineering , University of Engineering & Management, Jaipur
